

Our integrated approach:

Strathmore Business School's Managing Healthcare Business (MHB) courses are offered at two different levels: The Executive Managing Healthcare Business course and the Foundation of Managing Healthcare Business course. The Executive Managing Healthcare Business course is designed for experienced, academically schooled, healthcare managers in public and private healthcare facilities who want to deepen their management knowledge and expertise. The Foundations of Managing Healthcare Business course is a five-day introduction course designed as a bridge to the Executive course, for managers with a few years of experience in the field, aspiring an advanced career in healthcare management.

Foundations of Managing Healthcare Businesses Programme:

The programme is designed for new healthcare business owners and new managers in business, aspiring to advance their career in Health business environment. It lays the key foundations for improving business performance, quality and operations.

“Now, in developing my growth strategy I act on the lessons learned from case studies. I have also acquired knowledge on how to raise capital, with equity and funding. It has been very beneficial to listen to the coach’s feedback and tap his experience.”– Dr. Ken Okoth, owner and manager of Ruai Family Healthcare Centre, reflects on the course.
